

Attestation

on the evaluation of the

ENERTRAG - Drone-based lightning protection inspection system for wind turbines

through the

TÜV NORD EnSys GmbH & Co KG

Manufacturer:
ENERTRAG Betrieb GmbH
Gut Dauerthal
17291 Dauerthal
Germany

Basis of the evaluation:

- BWE Bundesverband WindEnergie: Technische Richtlinie zur Prüfung der Blitzschutzanlage an Windenergieanlagen
(Technical guideline for testing lightning protection systems on wind turbines)

Part of this attestation is the report "GS 8119723175 Rev.0".

The ENERTRAG drone-based lightning protection inspection system is capable of carrying out inspections and measurements of a lightning protection system of wind turbine rotor blades in accordance with the above-mentioned directive.
